

2017/2018

Dear Friends:

The Minette Grosso McKenna Angel Foundation was founded in 2004, a year after Minette Grosso McKenna passed away from breast cancer. Her courage, strength and determination during her ten year battle inspired many and was the inspiration for our Foundation. As a nurse, Minette devoted herself to those in her care and she continued that dedication by offering assistance and support to other cancer patients throughout her own battle.

The Foundation's mission of supporting breast cancer patients and survivors continues. We provide assistance to those in treatment, support research and promote breast health awareness.

We offer scholarships to second year nursing students at Seton Hall University's College of Nursing. We also offer scholarships to Verona students entering the medical field, placing a priority on nursing majors.

The Foundation has partnered with the Cancer Center at Saint Barnabas Medical Center, The Center for Breast Health and Disease Management at RWJBarnabas Health Ambulatory Care Center, Saint Barnabas Medical Center's Lymphedema Program and Comfort Project 360.

In memory of Minette's fifteen year anniversary, the Foundation is hosting their "2018 Celebration of Angels" on Thursday, April 26, 2018 at the Park Savoy in Florham Park, New Jersey. We will be honoring the Reverend Michael A. Hanly, Myriad Genetic Laboratories, Inc., and Dr. and Mrs. Michael Scoppetuolo for their passion, commitment, dedication and spiritual guidance to all those in their care and for partnering in our vision of a world without breast cancer.

Please help to make this event a success by purchasing an Ad in our Journal. **Your help would be greatly appreciated, and an Ad Journal Agreement is enclosed for your convenience.**

Your support is crucial in allowing us to continue our mission.

Sincerely

Minette Grosso McKenna Angel Foundation
