

Mission

The mission, to keep the spirit of Minette alive by supporting breast cancer patients and survivors, continues. We provide assistance to those in treatment, support research and promote breast health awareness, which is vital to saving lives. We offer scholarships to second year nursing students at Seton Hall University's College of Nursing, a scholarship to a High School Senior from Verona entering the medical field, placing a priority on nursing majors, and an Impact Scholarship to a High School Senior who has been affected by breast cancer.
